# Dry Land and Enclosed Storage Management for NetSuite

## Seamlessly Enhancing Marina Operations and Financial Control within NetSuite

Step into the future of maritime management with Harbour Mastery's i-Marinas ERP Management solution, a robust native application seamlessly built inside Oracle NetSuite. This application streamlines marina operations through digital automation, allowing you to complete tasks more efficiently, improve effectiveness, and enhance financial control.

**Dry Land and Enclosed Storage Management for NetSuite** offers marina and shipyard operators a robust, cloud-based management solution that supports around-the-clock operations with a customer-friendly online interface while ensuring operational efficiency and superior data security. By leveraging real-time data and scalable technology, marinas can optimize space utilization, automate financial transactions, and improve overall service delivery, paving the way for growth and enhanced customer satisfaction.

## Automates Interdependence and Interoperability Processes for Finance and Operations

## Benefits

1. **Optimize Resource Utilization:** Enhance space and service use with satellite views and real-time availability for optimal allocation and revenue.

2. **Automate Financial Operations:** Streamline billing, payment processing, and reporting to reduce overhead and focus on profitability.

3. **Enhance Customer Experience:** Offer an intuitive online interface for managing storage spaces and services, improving satisfaction.

4. **Ensure Data Security:** Maintain high security with controlled access and robust data management to protect sensitive data.

5. **Increase Scalability:** Adapt to business growth with a scalable system.

6. **Deliver Insights:** Generate detailed reports for decision-making.

7. **Access Expert Support:** Receive support from skilled professionals.

## Built Natively inside NetSuite

Dry Land and Enclosed Storage Management for NetSuite is 100% natively integrated within NetSuite, so all activity is handled in real-time and with complete 360° visibility. Using this application feels like "you have never left NetSuite"— it is a seamless experience.

## Enhanced Features

1. **Customer Online Interface:**
   - View, request, and manage storage spaces through an online portal, which enhances the experience and reduces the admin workload.
   - View and select open and enclosed storage options, including climate-controlled spaces, with specs, availability, and pricing.
   - Initiate booking and manage account details for periodic and one-time charges.
   - Book on-site assistance for moving items in and out of storage.

2. **Automated Financial Management:**
   - Automates billing, payment processing, and financial reporting for accuracy and time-saving.
   - Features customer profitability analysis and standardized reporting.

3. **Operational Data Integration:**
   - Integrates multiple operational modules for phased implementation aligned with business growth.
   - Supports comprehensive data entry and management for operational and capital expenses.
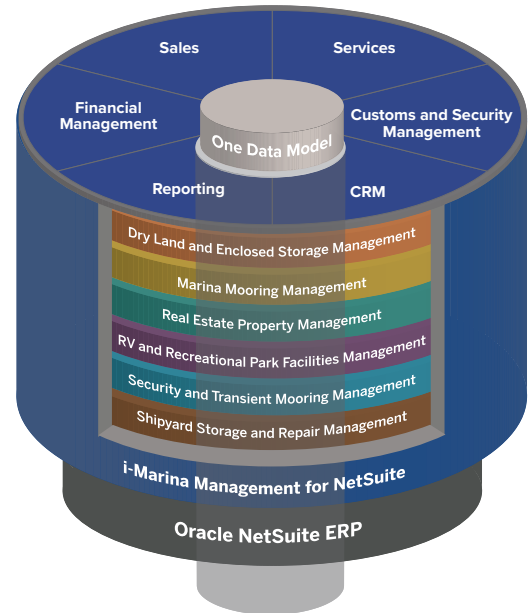

4. **Security and Access Control:**
   - Maintains strict security protocols for data and physical access, ensuring data integrity.
   - Implements controlled access measures and security routines.

5. **Scalable Application Framework:**
   - Scales operations with a system designed to grow your business.
   - Adapts to handle increasing operational and financial data without performance issues.

6. **Advanced Reporting Capabilities:**
   - Uses a robust report writer for standard and custom reporting needs.
   - Facilitates analyses, including space fee modeling, revenue optimization, and financial planning.
