

# Freight Forwarding Agency for NetSuite

## Seamless, End-to-End Delivery Services Management for NetSuite

Harbour Mastery's Freight Forwarding Agency for NetSuite brings every part of freight management into one platform—giving freight forwarders the tools to run smarter, faster, and with total confidence.

### Benefits

- **Total Control, One Platform:** Complete operational control—quotes through delivery—directly inside NetSuite. No switching screens or disconnected processes.
- **Time-Saving Automation:** Eliminate double entry, repetitive tasks, and manual paperwork—freeing up your team for higher-value work.
- **Effortless Compliance:** Automatically stay on top of import/export documentation and regulatory requirements on every shipment.
- **Data-Driven Decision Making:** Access clear, actionable reports on schedules, billing, and performance to guide business strategy updated in real-time.
- **Adaptability for Any Shipment:** Handle anything from recurring routes to special projects, across local and global deliveries, with ease.

**Up to 40%**  
**Greater Efficiency for Freight Teams**

i-Intermodal for NetSuite

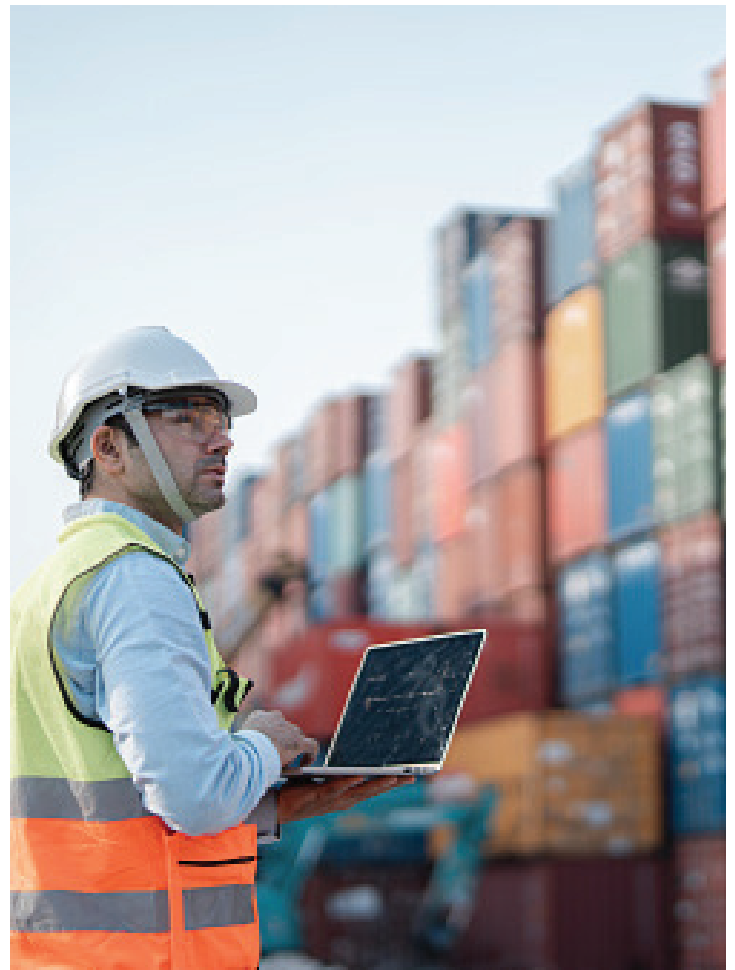

“With Harbour Mastery and NetSuite, we move shipments faster, make fewer mistakes, and our team’s efficiency is way up.”

## Built Natively inside NetSuite

Freight Forwarding for NetSuite is 100% natively integrated within NetSuite, so all activity is handled in real-time and with complete 360° visibility. Using this application feels like “you have never left NetSuite”—it’s a seamless experience.

### Features

- **Centralized Freight Management:**  
Oversee quoting, booking, documentation, and delivery—all within NetSuite for seamless process control.
- **Custom Quoting & Bidding:**  
Request and compare quotes from multiple vendors, by shipment or route, for optimal pricing and selection.
- **Live Shipment Tracking:**  
View up-to-date shipment status, ETAs, and progress directly in NetSuite—accessible to all stakeholders.
- **Automated Documentation:**  
Create, submit, and manage all required shipping paperwork, including customs forms, with automatic accuracy checks.
- **Comprehensive Logistics Coordination:**  
Organize the full delivery journey—first-mile to last-mile—across sea, air, rail, and trucking with a single point of contact.
- **Dynamic Pricing & Contract Management:**  
Apply markups, discounts, and contract terms flexibly by project or customer for precise, transparent billing.
- **Built-In Financial Tools & Reporting:**  
Process invoicing, collections, and vendor payments inside NetSuite, and instantly generate financial and operational reports.
- **Unified Collaboration Hub:**  
Centralize data and communication for all parties, supporting real-time updates and faster response to change.
